

Nithin Datta Attili

Flutter Developer — AWS Cloud Engineer — Full Stack Developer

✉ attiliniithin@gmail.com — 📞 +91 9059262745 — 🔗 LinkedIn — 🐙 GitHub

PROFESSIONAL SUMMARY

CSE undergraduate specializing in cross-platform Flutter development and AWS serverless architectures. Proven record of reducing API latency by 20%, deployment time by 40%, and delivering scalable AI-powered applications in competitive hackathon environments. Skilled in full-stack development (Flutter, Java Spring Boot, Python, Firebase) and DevOps pipelines (Jenkins, Docker, Kubernetes, OpenShift) with hands-on Agile/Scrum experience.

SKILLS

Languages	Java, Python, Dart, C
Mobile / Cloud	Flutter, Firebase (Auth, Firestore), AWS (Lambda, API Gateway, DynamoDB, Cognito, Textract, Bedrock, Polly, S3, CloudWatch, IAM)
DevOps / DB	Jenkins, Docker, Kubernetes, OpenShift, GitHub Actions — DynamoDB, MongoDB, Firestore
Core Concepts	REST APIs, Microservices, Serverless Architecture, OOP, DSA, Agile/Scrum, Computer Networks
Testing / Tools	Postman, API Testing, Unit Testing, Git/GitHub

EXPERIENCE

Flutter Developer Trainee — TechnicalHub

May 2025 – Present

- Developed 3+ cross-platform mobile apps using Flutter and Dart, improving UI responsiveness by 30% through widget-level optimizations and Provider-based state management.
- Integrated Firebase Authentication and real-time Firestore databases, streamlining user onboarding across 3 application prototypes.
- Collaborated in a 6-member Agile team via Git/GitHub across 2-week sprint cycles, delivering features consistently on schedule with code reviews and retrospectives.

Cloud Computing Intern — APSSDC

May 2025 – July 2025

- Deployed a serverless full-stack app using AWS Lambda, API Gateway, DynamoDB, and Cognito, reducing API response latency by 20%.
- Configured IAM roles and least-privilege policies across 6+ AWS services, achieving zero security misconfigurations throughout the deployment lifecycle.
- Integrated Flutter frontend with a Python AWS serverless backend, reducing maintenance overhead by 40% through stateless microservices design.

PROJECTS

Qlue – AI Voice Interview Coach

Flutter, AWS Lambda, Textract, Bedrock, Polly — [Repo](#)

- Led backend architecture for a voice-driven AI interview app, owning 60% of core backend orchestration logic within a 3-member team.
- Deployed AWS Lambda functions to orchestrate Textract (resume parsing) and Bedrock (AI generation), resolving complex queries in under 3 seconds.
- Engineered strict-listening Flutter state logic to prevent barge-in and monitored CloudWatch logs to maintain 99% uptime across concurrent sessions.

Skill Hire – Freelance Skills Marketplace

Flutter, Java Spring Boot, Docker, Kubernetes, OpenShift — [Repo](#)

- Designed the full CI/CD pipeline using custom Jenkinsfiles, automating build and release workflows and cutting manual deployment time by 40%.
- Authored Kubernetes/OpenShift YAML manifests to deploy 5+ containerized Java Spring Boot microservices, achieving 100% zero-downtime rolling restarts.
- Built a responsive Flutter frontend consuming Java Spring Boot REST APIs, delivering a seamless cross-platform experience for freelancers and clients.

ACHIEVEMENTS

- 5th Place – Project Space Hackathon (TechnicalHub, 2026):** Top 5 among 160+ projects and 900+ students in a 24/7 continuous hackathon with a 6-member team.
- 2nd Place – Google DCGC 2.0 Hack Sprint (2025):** Built *Qlue*, an AI voice interview coach using Flutter and AWS serverless, competing against 100+ teams.

EDUCATION

2023 – 2027	B.Tech in Computer Science and Engineering , Aditya College of Engineering and Technology, Surampalem	CGPA: 8.08 / 10
2021 – 2023	BIEAP (MPC) , Aditya Junior College, Mandapeta	87.6%

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Certified DevOps Professional – Oracle	2025
GitHub Foundations – Microsoft	2026
Postman API Fundamentals Student Expert – Postman	2024
Programming Essentials in C – Cisco Networking Academy	2024
